

**Claims Denying EXcL**

**Date of notice: 11/5/24**

Meridian has identified an issue where procedure codes are hitting EXcL (Deny: No action needed- will be processed after state review new code). This code is applied when new codes are published but HFS has not indicated coverage decision. Due to an error, some long established codes have incorrectly had EXcL denial applied, for example CPT®99213. Please note, no final coverage decision has been made for new codes that were effective October 1,2024. The system has been updated and all incorrect denied claims will be reprocessed with no further action by the provider.
