

FQHC/RHC Claims Denying EX4B

Date of notice: 10/7/24

Meridian has identified an issue when Federal Qualified Health Clinics and Rural Health Centers claims are billed with Place of Service 10. CPT® T1040 or T1015 on service line 1 are denying *EX4B (service not reimbursable in location billed)* and detail lines are denying *EXGT (encounter code required and must be billed with payable detail lines)* in error. The system is being updated and all incorrect denied claims will be processed with no further action by the provider.
